

Task Analysis

Learning Objective: Student will be able to tie his shoes independently

Prerequisite Skills: What must this student already know if he is to learn this new material? How to put shoes on, grip shoelaces, and follow a checklist (word and picture based).

Instructional Steps

1. Slide foot into shoe
2. Pull laces tight
3. Hold right lace in right hand and the left lace in left hand
4. Cross the laces (laces will switch hands)
5. Place left over and under the right lace
6. Pull both laces until crossed section touches shoe
7. Make a loop with the right lace
8. Wrap the other lace around the loop (will make a small hole)
9. Pull the middle of the lace through the small hole
10. Make another big loop by pulling it through
11. Pull tightly on the big loops
12. Make sure the shoe is snug on the foot
13. You have tied your shoe!
